

Project Application : Stage 2

Convince us to work with you

Our follow up questions will partially depend on the size of the grant and surely on the clarity of your first stage application. **To help you get ready for Stage 2, find a list of 12 questions below. Prepare to answer the first five (5) for sure.** Find more information on selection criteria in our [FAQ page](#)

SURELY PREPARE MORE INFORMATION ON:

(1) ACTIVITIES

Provide a detailed plan of activities you will carry out and the approach to work you will use. Remember to include, for each activity, **who** will lead the implementation, **what** it consists of and what's its **contribution** to the overall project. You should also include **when** the activities will happen and the main **milestones**. For these last two points, it might be easier to use a timeline. You can use [our template \(application pack\)](#) or use your own if you have one you are more comfortable with.

(2) RESULTS

List and describe the concrete (and measurable) results you aim to bring about through your activities. How will you organise monitoring and evaluation, in order to make sure you are on the good way to achieving your results or that you have achieved them at the end of the grant?

(3) VISIBILITY

Share your communication plan to increase visibility and reach for your project

(4) FINANCIAL STATUS

Provide a copy of your latest audited accounts or a copy of accounts covering the last financial year if you do not have an audited version

(5) ELIGIBILITY

Provide a copy of your statutes or your registration as an organisation, if you are not an ESU member

WE WILL PROBABLY ASK MORE INFORMATION ON:

(6) ORGANISATION

Tell us more about your organisation(s) and your work to date. What successful actions or projects (relevant to this application) have you achieved so far? What expertise can you put into this project?

(7) PARTNERSHIPS

Tell us more about this partnership. What is the added value of involving this specific set of partners, what are each partner's roles and expertise?

(8) INCLUSION

How is your project a good example of a student-led promoting inclusion? How do you bring different voices and perspectives into this project and how do you promote inclusive decision-making and shared ownership of the project?

(9) NEEDS

It's not completely clear why you want to run this project. Please share with us a demonstration of the need for your work. We would like to know how you determined which needs you want to address, and what data can you provide to prove it's relevant in your context.

(10) SUSTAINABILITY

What is your plan to make the project or its impact last beyond the lifespan of the grant?

(11) TASK DIVISION

Provide more details on role division and on the skills of people managing the project. How will your organisation and its partners provide support to implementation? What are the roles and tasks of the project manager? Who else is supporting them, and how do you plan to deal with communication and sharing of information from the project towards the organisation overall?

(12) EXTERNAL SUPPORT

We suggest you contact an external person willing to support you throughout the project by sharing their external perspective on your activities or mentoring you, based on your needs and their skills. How did you choose this person? What is their first feedback or advice they gave you based on your project application? If possible, share with us a bit about their profile and their contact details.
