TERMS OF PARTICIPATION

8. Eligibility and rules of origin

Participation is open to all natural persons who are nationals of and legal persons (participating either individually or in a grouping – consortium - of tenderers) which are

effectively established in a Member State of the European Union or in a eligible country or territory as defined under the Regulation (EU) N°236/2014 establishing common rules and procedures for the implementation of the Union's instruments for external action (CIR) for the applicable Instrument under which the contract is financed (see also heading 22 below). Participation is also open to international organisations.

All supplies must originate in one or more of these countries.

Please be aware that after the United Kingdom's withdrawal from the EU, the rules of access to EU procurement procedures of economic operators established in third countries will apply to candidates or tenderers from the United Kingdom depending on the outcome of negotiations. In case such access is not provided by legal provisions in force at the time of contract award, candidates or tenderers from the United Kingdom could be rejected from the procurement procedure.

9. Grounds for exclusion

Tenderers must submit a signed declaration, included in the Tender Form for a Supply Contract, to the effect that they are not in any of the situations listed in point 2.3.3 of the Practical Guide.

10. Number of tenders

Tenderers may submit only one tender per lot. Tenders for parts of a lot will not be considered. Any tenderer may state in its tender that it would offer a discount in the event that its tender is accepted for more than one lot. Tenderers may not submit a tender for a variant solution in addition to their tender for the supplies required in the tender dossier.

11. Tender guarantee

Tenderers must provide a tender guarantee of EUR 4000 for Lot 1 and EUR 3300 for Lot 2 when submitting their tender. This guarantee will be released to unsuccessful tenderers once the tender procedure has been completed and to the successful tenderer[s] upon signature of the contract by all parties. This guarantee will be called upon if the tenderer does not fulfil all obligations stated in its tender.

12. Performance guarantee

The successful tenderer will be asked to provide a performance guarantee of 10% of the amount of the contract at the signing of the contract. This guarantee must be provided together with the return of the countersigned contract no later than 30 days after the tenderer receives the contract signed by the Contracting Authority. If the selected tenderer fails to provide such a guarantee within this period, the contract will be void and a new contract may be drawn up and sent to the tenderer which has submitted the next cheapest compliant tender.

For amounts of EUR 150000 or below, on the basis of objective criteria such as the type and value of the contract, the Contracting Authority may decide not to require such a guarantee.

13. Information meeting and/or site visit

No information meeting is planned.

14. Tender validity

Tenders must remain valid for a period of 90 days after the deadline for submission of tenders. In exceptional circumstances, the Contracting Authority may, before the validity period expires, request that tenderers extend the validity of tenders for a specific period (see para 8.2

of the instructions to tenderers).

15. Period of implementation of tasks

The period of implementation of the tasks is 6 months from the Contract signature by both parties until the provisional acceptance.

SELECTION AND AWARD CRITERIA

16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors:

- 1) Economic and financial capacity of tenderer (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.
 - The average annual turnover of the tenderer must be at least equal to the amount of the financial offer for the lot tendered;
- 2) Professional capacity of tenderer (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last 3 years from submission deadline.

For lot 1

- on average at least 5 staff work for the tenderer in fields related to this contract;

For lot 2

- on average at least 5 staff work for the tenderer in fields related to this contract;

- 3) Technical capacity of tenderer (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last 5 years from submission deadline.

For Lot 1

- The tenderer has delivered supplies under at least one contract, where the Tenderer's portion was at least 50% of the financial offer for the lot tendered, covering supply of water treatment plants or mobile laboratories.

For Lot 2

- The tenderer has delivered supplies under at least one contract, where the Tenderer's portion was at least 50% of the financial offer for lot tendered, covering the supply of vehicles.

This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in

its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, final acceptance). In case of projects still on-going only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value.

Capacity-providing entities

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may not be considered appropriate by the Contracting Authority are when the tenderer relies in majority on the capacities of other entities or when they rely on key criteria. If the tenderer relies on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.
