c. UN Women Terms of Reference

1. Introduction [Please elaborate]

a. Background/Context for required services/results

The project “Improved Safety of Women in Serbia” is anchored in the normative frameworks of the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW) and the Council of Europe Convention on preventing and combating violence against women and domestic violence (also known as the Istanbul Convention)¹, and is also in alignment with EU accession standards. The project is funded by the Norwegian Ministry of Foreign Affairs through a direct agreement with UN Women.

The long-term project goal is that women and girls in Serbia live in a society free from gender-stereotypes and violence. The project’s focus is to ensure safety of women and girls through strengthened capacities of relevant stakeholders, enhanced legislation, improved institutional and organizational framework, institutional responses, and awareness-raising. The project takes a holistic approach to violence against women and girls (VAWG) to ensure a higher impact, and operate at individual, relationship, community, and society levels by focusing on security and justice sectors and independent protection mechanisms. The project aims to contribute to overcoming challenges and barriers in the implementation of the legislation caused by the limited institutional capacity at regional and local levels by targeting support and tailor-made interventions for different stakeholders and beneficiaries.

One of the project’s key focuses is related to violence against rural women and girls which is under-reported, as there is insufficient access to information about protection from VAWG due to the specific community social norms in rural areas. Therefore, the project will support context-specific outreach activities to inform rural women and girls of the available and accessible mechanisms for protection from VAWG and gender-based discrimination.

Violence against women and girls, particularly those from marginalized and multiply discriminated groups, remains one of the key challenges for women’s human rights in Serbia. The latest prevalence study conducted by OSCE in 2018 entitled “Well-being and Safety of Women” shows alarming data: 40% of adult women experienced some form of sexual harassment during their lifetime, while 18% during the previous 12 months; 22% of adult women were victims of physical and sexual violence by current partner, while 18% of adult women experienced physical and sexual violence by ex-partners.

Implementation of the Law on the Prevention of Domestic Violence related to the protection of women who belong to vulnerable groups, especially women with disabilities, Roma women and women and girls living in rural areas, remains a challenge due to their specific living circumstances. While data of the Ministry of Interior shows the number of VAWG reported cases has been increasing since the adoption of the Law on Protection from Domestic Violence, violence against rural women is still under-reported.

Access to information about protection from VAWG might not be sufficient to improve protection of rural women and girls, because of the specific community social norms in rural areas. So, the chosen strategy is to strengthen, as well, rural women’s organizations capacities for protection from VAWG and discrimination and enable them to implement context-specific outreach activities to inform rural women and girls of the available and accessible mechanisms for protection from VAWG and gender-based discrimination.

b. General Overview of services required/results

The project builds on the strong links of UN Women with women’s CSOs in the country. CSOs, in particular women's organizations, play a crucial role in the promotion of gender equality and women's rights. They are key advocacy stakeholders in terms of moving governments from commitment to implementation in relation to international normative standards. They are also key stakeholders in the provision of services that are essential to the establishment of multi-sectoral and coordinated mechanisms to adequately respond to the needs of victims of violence. Furthermore, women's organizations are key stakeholders in ensuring that the perspectives and voices of the most excluded and discriminated-against groups of women are heard by policy makers.

The project aims to target women’s CSOs and support them to implement context-specific outreach activities to empower rural women and girls through capacity building for life without violence and information sharing of the available and accessible mechanisms for protection from VAWG and gender-based discrimination.

2. Description of required services/results

With a view to achieving the above project aim, it is expected that the selected organization or entity will deliver set of activities aimed at increasing the knowledge and confidence and empowering rural women and girls, especially those from vulnerable groups facing multiple discrimination, to recognize and report cases of VAWG and gender-based discrimination and to break and move out of cycle of violence.

Non-exhaustive list of types of activity which Responsible Party should undertake under this CfP are:

- **Develop and implement initiatives and activities contributing to empowerment of rural women and girls to live lives without violence and discrimination and boost their economic resilience** by, among other things: increasing knowledge of rural women on their social and economic rights and gender equality; supporting rural women to learn new skills and activate on the labour market; support improving the production and commercialization of traditional arts and crafts produced by rural women; informing on employment opportunities and access to investment opportunities; support to social entrepreneurship and cooperatives for rural women; support to organic production, agri-tourism; fostering self-employment of rural women; enabling and forging linkages and partnerships that will enable their economic, social empowerment etc.
- **Develop and implement capacity/ confidence building activities reaching as many rural women and girls as possible to improve their knowledge about discrimination and violence, and/or use of available services for protection from VAWG and gender-based discrimination.** This may include improving access to information and services, good practices and experience sharing, mentoring, building networks between women from rural and urban areas, etc.,
- **Develop and implement awareness raising actions, reaching as many rural women and girls, man and boys, as possible, using traditional and social media, as well as different innovative ways of communication** aimed at empowering them to recognize VAWG and gender-based discrimination, to report it, move out-or supporting moving out of cycle of violence of rural women and girls, and contribute to creating a change in gender patterns;

All knowledge products and communications materials that would be produced under this agreement must acknowledge the support of and seek the approval of UN Women. Furthermore, they should be in line with the Norway MFA Communication and Visibility tools.

3. **Timeframe: Start date and end date for completion of required services/results [Please elaborate]**

The project is expected to be carried out in **10-month period, between the months of January 2022 and October 2022.**

4. **Competencies:**

a. Technical/functional competencies required;

- Experience in strengthening and promoting the human rights of women and girls in general, including rural women and girls in particular;
- Experience in managing projects related to women human rights, their empowerment and/or and violence against women and girls (VAWG).

b. Other competencies, which while not required, can be an asset for the performance of services:

Two or more organizations or entities may cluster and submit one proposal, on the topic of mutual interest. Such proposals must clearly indicate which organization will take lead responsibility for project management and contractual obligations. Furthermore, the proponent may provide sub-grants to other eligible organizations or entities. If sub-grants modality is considered, the lead proponent will take full accountability for sub-grantees results, financial resources utilization and reporting.
- 13 A description of the services required is described in CFP Section 1- c "Terms of Reference".
- 14 UNWOMEN may, at its discretion, cancel the services in part or in whole.

No proposal may be withdrawn in the interval between the deadline for submission of proposals and the expiration of the period of proposal validity.
- 16 All proposals shall remain valid and open for acceptance for a period of 90 calendar days after the date specified for receipt of proposals. A proposal valid for a shorter period may be rejected. In exceptional circumstances, UNWOMEN may solicit the proponent's consent to an extension of the period of validity. The request and the responses thereto shall be made in writing.

11. Evaluation of technical and financial proposal

11.1 PHASE I – TECHNICAL PROPOSAL (70 points)

11.1.1 Only proponents meeting the mandatory criteria will advance to the technical evaluation in which a maximum possible 70 points may be determined. Technical evaluators who are members of an Evaluation Committee appointed by UNWOMEN will carry out the technical evaluation applying the evaluation criteria and point ratings as listed below. In order to advance beyond Phase I of the detailed evaluation process to Phase II (financial evaluation) a proposal must have achieved a minimum cumulative technical score of 50 points.

1	Organizational capacity: -Organizational experience and proven track record on gender equality, women’s empowerment and/or ending violence against women and girls; -Proposed staffing (number and expertise) for the services to be delivered; -Relevant experience in partnerships with the UN Women, other UN agencies, government institutions, NGOs and other development actors.	15 points
2	Relevance of the proposal: - The quality of the context analysis; - Relevance of the problem statement and identification of challenges to be addressed; - Clarity of the specific results expected through engagement; -The quality of proposed indicators, baselines, targets; -Pertinence of the expected results to the ToR.	30 points
3	Implementation strategies and plans: -Relevance of the implementation strategies and innovative approaches; -Suitability of the proposed activities to achieve expected results and address the identified problem(s); -Feasibility of the sequence of all major activities and the timeframe.	25 points
TOTAL		70 points

11.2 PHASE II - FINANCIAL PROPOSAL (30 points)

Financial proposals will be evaluated following completion of the technical evaluation. The proponent with the lowest evaluated cost will be awarded 30 points. Other financial proposals will receive pro-rated points based on the relationship of the proponents’ prices to that of the lowest evaluated cost.

Formula for computing points:
Points = (A/B) Financial Points

Example: Proponent A’s price is the lowest at \$10.00. Proponent A receives 30 points. Proponent B’s price is \$20.00. Proponent B receives $(\$10.00/\$20.00) \times 30$ points = 15 points

12. Preparation of proposal

12.1 You are expected to examine all terms and instructions included in the CFP documents. Failure to provide all requested information will be at proponent’s own risk and may result in rejection of proponent’s proposal.

12.2 Proponent’s proposal must be organized to follow the format of this CFP. Each proponent must respond to every stated request or requirement and indicate that proponent understands and confirms acceptance of UNWOMEN stated requirements. The proponent should identify any substantive assumption made in preparing its proposal. The deferral of a response to a question or issue to the contract negotiation stage is not acceptable. Any item not specifically addressed in the proponent’s proposal will be deemed as accepted by the proponent. The terms “proponent” and “contractor” refer to those organizations that submit a proposal pursuant to this CFP.

12.3 Where the proponent is presented with a requirement or asked to use a specific approach, the proponent must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide the same will be viewed as non-responsive.

12.4 The terms of reference in this document provides a general overview of the current operation. If the proponent wishes to propose alternatives or equivalents, the proponent must demonstrate that any such proposed change is equivalent or superior to UNWOMEN established requirements. Acceptance of such changes is at the sole discretion of UNWOMEN.

12.5 Proposals must offer services for the total requirement, unless otherwise permitted in the CFP document. Proposals offering only part of the services may be rejected unless permitted otherwise in the CFP document.

12.6 Proponent's proposal shall include all of the following labelled annexes:

CFP submission (on or before proposal due date): **23.30 (GMT+1) on 8 October 2021.**

As a minimum, proponents shall complete and return the below listed documents (Annexes to this CFP) **as an integral part of their proposal**. Proponents may add additional documentation to their proposals as they deem appropriate.

14. Award

14.1 Award will be made to the responsible and responsive proponent with the highest evaluated proposal following negotiation of an acceptable contract. UNWOMEN reserves the right to conduct negotiations with the proponent regarding the contents of their proposal. The award will be in effect only after acceptance by the selected proponent of the terms and conditions and the terms of reference. **The agreement will reflect the name of the proponent whose financials were provided in response to this CFP.** Upon execution of agreement UNWOMEN will promptly notify the unsuccessful proponents.

14.2 The selected proponent is expected to commence providing services as of the date and time stipulated in this CFP.

Template for proposal submission

Mandatory requirements/pre-qualification criteria

Proponents are requested to complete this form (**Annex B-2**) and return it as part of their submission. Proponents must meet all mandatory requirements/pre-qualification criteria as set out in **Annex B-1**. Proponents will receive a pass/fail rating on this section. To be considered, proponents must meet all the mandatory criteria described in Annex B-1. UN WOMEN reserves the right to verify any information contained in proponent's response or to request additional information after the proposal is received. Incomplete or inadequate responses, lack of response or misrepresentation in responding to any questions will result in disqualification.

Component 1: Organizational Background and Capacity to implement activities to achieve planned results (max 1.5 pages)

This section should provide an overview with relevant annexes that clearly demonstrate that the proposing organization has the capacity and commitment to implement successfully the proposed activities and produce results. Key elements to be covered in this section include:

1. Nature of the proposing organization – Is it a community-based organization, national or sub-national NGO, research or training institution, etc.?
2. Overall mission, purpose, and core programmes/services of the organization
3. Target population groups (women, indigenous peoples, youth, etc.)
4. Organizational approach (philosophy) - how does the organization deliver its projects, e.g., gender-sensitive, rights-based, etc.
5. Length of existence and relevant experience
6. Overview of organizational capacity relevant to the proposed engagement with UN Women (e.g., technical, governance and management, and financial and administrative management)

Component 2: Expected Results and Indicators (max 1.5 pages)

This section should articulate the proponent's understanding of the UN Women Terms of Reference (TOR). It should contain a clear and specific statement of what the proposal will accomplish in relation to the UN Women TOR. This should include:

1. The **problem statement** or challenges to be addressed given the context described in the TOR.
2. The specific **results** expected (e.g., outputs) through engagement of the proponent. The expected results are the measurable changes which will have occurred by the end of the planned intervention. Propose specific and measurable indicators which will form the basis for monitoring and evaluation. These indicators will be refined and will form an important part of the agreement between the proposing organization and UNWOMEN.

Component 3: Description of the Technical Approach and Activities (max 2.5 pages)

This section should describe the technical approach and should be able to show the soundness and adequacy of the proposed approach, what will actually be done to produce the expected results in terms of activities. There should be a clear and direct linkage between the activities and the results at least at the output level. Specific strategies should also be described to support the achievement of results, such as building partnerships, etc.

Activity descriptions should be as specific as necessary, identifying **what** will be done, **who** will do it, **when** it will be done (beginning, duration, completion), and **where** it will be done. In describing the activities, an indication should be made regarding

the organizations and individuals involved in or benefiting from the activity.

This narrative is to be complemented by a tabular presentation that will serve as Implementation Plan, as described in Component 4.

Component 4: Implementation Plan (max 1.5 pages)

This section should be presented in tabular form and can be attached as an Annex. It should indicate the **sequence of all major activities and timeframe (duration)**. Provide as much detail as necessary. The Implementation Plan should show a logical flow of activities. Please include in the Implementation Plan all required milestone reports and monitoring reviews.

Component 5: Monitoring and Evaluation Plan (max. 1 page)

This section should contain an explanation of the plan for monitoring and evaluating the activities, both during its implementation (formative) and at completion (summative). Key elements to be included are:

- How the performance of the activities will be tracked in terms of achievement of the steps and milestones set forth in the Implementation Plan
- How any mid-course correction and adjustment of the design and plans will be facilitated on the basis of feedback received
- How the participation of community members in the monitoring and evaluation processes will be achieved

Component 6: Risks to Successful Implementation (1 page)

Identify and list any major risk factors that could result in the activities not producing the expected results. These should include both internal factors (for example, the technology involved fails to work as projected) and external factors (for example, significant currency fluctuations resulting into changes in the economics of the activity). Describe how such risks are to be mitigated.

Include in this section also the key **assumptions** on which the activity plan is based on. In this case, the assumptions are mostly related to external factors (for example, government environmental policy remaining stable) which are anticipated in planning, and on which the feasibility of the activities depend.

Component 7: Results-Based Budget (max. 1.5 pages)

The development and management of a realistic budget is an important part of developing and implementing successful activities. Careful attention to issues of financial management and integrity will enhance the effectiveness and impact. The following important principles should be kept in mind in preparing a project budget:

- Include costs which relate to efficiently of carrying out the activities and producing the results which are set forth in the proposal. Other associated costs should be funded from other sources.
- The budget should be realistic. Find out how much will planned activities actually cost, and do not assume they would cost less.
- The budget should include all costs associated with managing and administering the activities or results, particularly the cost of monitoring and evaluation.
- The budget could include “Support Costs”: those indirect costs that are incurred to operate the Partner as a whole or a segment thereof and that cannot be easily connected or traced to implementation of the Work, i.e., operating expenses, over-head costs and general costs connected to the normal functioning of an organization/business, such as cost for support staff, office space and equipment that are not Direct Costs.
- “Support Cost Rate” means the flat rate at which the Partner will be reimbursed by UN Women for its Support Costs, as set forth in the Partner Project Document and not exceeding a rate of 8% or the rate set forth in the Donor Specific Conditions, if that is lower. The flat rate is calculated on the eligible Direct Costs.
- The budget line items are general categories intended to assist in thinking through where money will be spent. If a planned expenditure does not appear to fit in any of the standard line item categories, list the item under other costs, and state what the money is to be used for.
- The figures contained in the Budget Sheet should agree with those on the proposal header and text.
