

## Global Challenges Local Solutions European Grant Round

### GCLS FOR UKRAINIAN REFUGEES

#### **GCLS Special Grant Round guidelines - the support for community foundations dealing with refugee crisis caused by war in Ukraine**

##### **ABOUT THE PROGRAM**

There are approximately 650 community foundations (CFs) operating across Europe. Thanks to the enormous amount of work, local communities in Europe are empowered in diagnosing crucial social issues and in joining forces with various stakeholders to tackle them. In this way they successfully make changes at the local level, while also contributing to the process of global problem resolution.

The primary objective of the Global Challenges Local Solutions (GCLS) Fund is to support community foundations throughout Europe to address global challenges on the local level, focusing on initiatives referring directly to Sustainable Development Goals (SDGs). This objective has been implemented so far through six grant round competitions, connecting CFs and SDGs. Up until now, the Academy for the Development of Philanthropy in Poland (ADPP), the operator of the GCLS program, has distributed 48 grants for the total amount of approximately 600 000 USD, to local organizations across Europe.

Today, due to the war in Ukraine, the whole world is facing an extraordinary political, economy and social situation. Especially difficult situation is in the countries bordering Ukraine, which are receiving hundreds of thousands or even millions of Ukrainian refugees, escaping their country to survive.

Community foundations are often the organizations which immediately react to emergencies and special situations, and act by supporting local communities and organizations confronted with challenges. And so it is at this moment, in the context of the Ukrainian refugee crisis.

**Due to this circumstances, the Charles Stewart Mott Foundation - a co-founder of the GCLS grants - has taken a decision to lever additional funds, approximately 300 000 USD, to support community foundations in Europe, dealing with major refugee crisis caused by war in Ukraine.**

**The funds will be provided in the form of grants, which CFs may apply for through an announced competition and call for proposals. The competition and all procedures are conducted by the Academy for the Development of Philanthropy in Poland, the operator of the GCLS program.**
